

# One Platform.

## 5 Ways to Show Your Property.

In-person and virtual showings handled by on-demand agents or your in-house team, plus the most secure self-showings on the market.

### Why Showdigs for showings?

The Showdigs platform is the most flexible showing, scheduling and fieldwork platform on the market. You can offer on-demand, in-person, or live video tours with your own agent or with a licensed Showdigs Agent. We also offer the most secure self-showing tours, using advanced facial recognition and single-use security codes for added security. All scheduling happens in real-time from any device. We handle pre-screening and have a dedicated Support Team to handle incoming calls and communication from your prospects.

### How it Works

- **Pre-screening:** Showdigs screens prospects based on property manager criteria.
- **ID verification:** ID images are collected for scheduling. Optional additional verification with live selfie.
- **Location check:** Verify prospect's location before granting access.
- **Post-tour follow-up:** Prospect secures property, provides feedback, and receives application link.

“ Showdigs has actually allowed me to take on more, while getting a lot more of my time back. ”

Natalie Swerkes, First Statewide Realty

# The Benefits

## Advanced Security

Showdigs leads with industry-best security features, including facial recognition verification, tour closeout protocol, 7 days/week operational support and call center in case prospects need assistance.

## Increase Margins

Relying on self-showings + Showdigs agents can get you 200%+ productivity for 50% of the cost. You're no longer hindered by the distance you have to drive or the availability/cost of hiring in-house employees.

## Save Time

Gain 8 extra hours in a day by never responding to another property inquiry, never driving to another showing, and letting our AI leasing bot/in-house team handle all your communication and coordination.

## Scale Seasonally

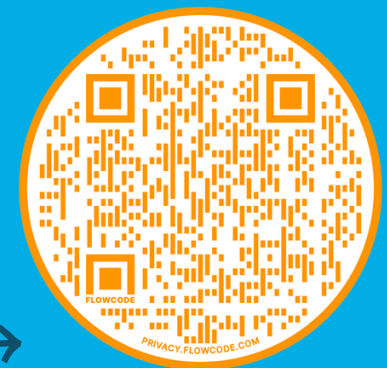

Showings fluctuate, but our commitment to your business remains the same. Our flexible pricing and on-demand agents scale up with your business during the busy season, and down when things are slower.
